

Q-1000

AUTOMATIC CONVEYORISED STRETCH WRAPPING SYSTEM

THROUGHPUT

- 45-60 loads per hour

IDEAL FOR

- More efficient load handling
- Free-standing unit operation or integrated into a high volume conveyorised operation.

BENEFITS

- Operator-friendly Design
- Eliminate forklift jams
- No trip hazards or pinch points
- Easy to navigate touch screen
- Clear access to load film
- Fully guarded film roll carriage
- Efficient load handling
- Clean design
- Safe, convenient film loading
- "Touchless" film cutting system
- Complete safety guarding
- Safety shut-down systems
- Easy access

FEATURES

- Available as a free standing unit or integrated into a high volume conveyorised operation
- Industrial duty conveyor
- Closed space rollers
- Power Roller Stretch 200% standard
- Custom build options available

S-300XT

OVERHEAD STRADDLE STRETCH WRAPPING SYSTEM

THROUGHPUT

- 30-40 loads/hour
- Multiple configurations available.

IDEAL FOR

- Irregular shaped loads
- Unstable or heavy loads
- Forklift/palletjack loading
- Eliminating the "run-around"
- Improving productivity

BENEFITS

- No operator involvement
- Eliminates wasted operator time
- No getting on and off the forklift
- No bending to attach & cut the film
- Reduces risk of injuries
- No pneumatic hook ups with 240 Volt power for easy installation

FEATURES

- Remote lanyard START switch
- Automatic film attach & cut
- Protected mechanical cut & clamp
- Power-Roller Stretch® Plus System (200%)
- Maximum load height 1930mm*
- Electronically controlled wrap force
- Remote control units (Optional & at additional cost)

S-1200/1500/2500/ 3500/4000

AUTOMATIC STRADDLE STRETCH WRAPPING SYSTEMS

THROUGHPUT

- Range from 45-100 pallets per hour

IDEAL FOR

- Forklift/conveyor loaders
- Integrating with in-line conveyor
- Reducing labor & increasing throughput
- Minimum space requirements
- Designed for continuous needs of a two to three shift operation

BENEFITS

- Eliminates double handling (S-2500/S-3500)
- Less floor space required
- User friendly & simple maintenance
- Reliable operation
- Optimises film yield & load containment
- Safety (Interlock gates)
- Faster installation process

FEATURES

- Wrap cycle starts automatically
- Automatically cuts / attaches the film
- Wrap arm speeds ranging from 12 RPM to 40 RPM
- Flexible & open design
- Power Roller-Stretch® Plus System (200%)
- Electronically controlled wrap force
- Optional conveyor system
- Maximum Load Height: 1800mm
- PLC/Touchscreen

C-300/1000/2000

AUTOMATIC CASE ERECTOR

THROUGHPUT

- 15 - 22 cases per minute

IDEAL FOR

- Automating the process of erecting cases or those looking to simply upgrade or replace older equipment.

BENEFITS

- Faster, safer, more productive than manually formed cases
- Eliminates machine jams
- Compact, small footprint
- Easy loading of blanks
- Adjustment wheels, counters, and "help" chart make case adjustments easy

FEATURES

- Infeed Capacity 200 cases
- Air 80 psi, clean dry air
- Electric 415v, 3ph, 15amp
- Case Types RSC, HSC
- Flute Types B, C
- Wall types single wall (test for double wall)
- 12 month warranty, unlimited cycles

CS-300/1000

AUTOMATIC CASE SEALERS

THROUGHPUT

- 25 cases per minute

IDEAL FOR

- Automated productivity and efficiency in low speed case sealing applications.

BENEFITS

- Easy to operate
- Safe to operate
- Seals wide range of case
- Reliable performance

FEATURES

- Linear hand-wheel adjustments with digital indicators
- Settings easily reproducible
- No fine tuning required
- Folding area fully guarded
- Long life drive belts
- No scheduled maintenance

THROUGHPUT

- 25 cases per minute

IDEAL FOR

- Automated productivity and efficiency in low speed case sealing applications.

BENEFITS

- Easy to operate
- Safe to operate
- Seals wide range of case
- Reliable performance

OPTIONS

- Choice of tape • Extra guiding
- Fixed side justification
- "Low Tape" detection
- "Broken tape" and "tape empty" signal
- Choice of color • Signal beacon

ABOUT US

Established in 1990 Integrated Machinery, part of the Integrated Packaging Group, is recognised as the leading manufacturer of quality stretch wrapping equipment and systems throughout Australia and New Zealand. We're also proud agents for the Lantech range of wrapping equipment from the United States.

Through continued development of in-house resources and technology we are able to provide state of the art equipment to meet the needs of a wide range of industries.

We are committed to providing high quality, cost effective solutions to suit your company's specific requirements. Our stretch wrapping equipment ranges from semi automatic machines to fully automated lines and individual projects.

Our resources fulfil every project requirement incorporating design, engineering, installation and commissioning. In addition, to ensure optimal performance from our equipment, we provide an ongoing preventative maintenance and repair service.

exCELL210

SEMI AUTOMATIC STRETCH WRAPPING MACHINE

THROUGHPUT

- Up to 25 loads per hour

IDEAL FOR

- Replacing labour intensive hand wrapping & improving productivity
- High value performance in load containment

BENEFITS

- Suitable for any stretch film
- Local service and support
- OH&S friendly
- Environmentally friendly - less film used
- User friendly
- Highest quality wrap with least amount of plastic
- Service reminder alarm
- Standard 12 month warranty (parts & labour)

FEATURES

- Soft start turntable
- Wrap height 2200mm
- Standard low profile turntable with 2000kg capacity
- Selectable wrap cycles with adjustable top and bottom wraps
- 450/500mm friction brake (variable film tension control)
- Safety crush prevention device fitted to carriage
- Photo eye sensor to detect pallet height
- Automatic and manual wrap cycle
- 240V power connection
- Forklift transportable
- PLC controlled
- User friendly
- Variable speed drives for standard AC motors

OPTIONS

- Scales
- Black eye pallet height detection
- Standard or extended low profile ramp
- Extended column
- Extended base
- Extended 3 year warranty available with a 3 year service contract

exCELL220

SEMI AUTOMATIC STRETCH WRAPPING MACHINE

THROUGHPUT

- Up to 25 loads per hour

IDEAL FOR

- Replacing labour intensive hand wrapping & improving productivity
- High value performance in load containment

BENEFITS

- Suitable for any stretch film
- Local service and support
- OH&S friendly
- Environmentally friendly - less film used
- User friendly
- Highest quality wrap with least amount of plastic
- Service reminder alarm
- 12 month warranty parts & labour

FEATURES

- Soft start turntable
- Wrap height 2200mm
- Standard low profile turntable with 2000kg capacity

- Selectable wrap cycles with adjustable top and bottom wraps
- 425/500mm power control stretch (200%)
- Adjustable film tension control
- Safety crush prevention device fitted to carriage
- Photo eye sensor to detect pallet height
- Automatic and manual wrap cycle
- 240V power connection
- Forklift transportable
- PLC controlled
- Variable speed drives and AC motors
- Touch screen control panel (password protected)
- Automatic film loading position
- Variable turntable and carriage control

OPTIONS

- Scales
- Black eye pallet height detection
- Standard or extended low profile ramp
- Extended column
- Extended base
- Extended 3 year warranty available with a 3 year service contract
- Please enquire for further options

Q-300

SEMI AUTOMATIC STRETCH WRAPPING SYSTEM

THROUGHPUT

- Up to 25 loads per hour

IDEAL FOR

- Replacing labour intensive hand wrapping & improving productivity
- High value performance in load containment

BENEFITS

- Safe enclosed design
- No maintenance turntable support
- OHS & User friendly
- 12 month Warranty- Unlimited Cycles. All Components.

FEATURES

- Exclusive Lantech Safety Features
- Belt driven roll carriage and turntable
- No metal to metal contact
- Lubricated for life sealed bearings
- Turntable diameter 1650mm
- Belt slack safety switch
- Micro controller
- Access to machine program
- Timer controlled by presets
- Turntable Speed 1-12 RPM
- Power-Roller Stretch® System 200%
- Remote control units (optional & at additional cost)
- Various & customisable options available

Q-300XT

SEMI AUTOMATIC STRETCH WRAPPING SYSTEM

THROUGHPUT

- Up to 30 loads per hour

IDEAL FOR

- Improved productivity for customers wrapping between 30-100 loads per day
- Eliminate the run-around with Simple Automation™ in a fast paced environment

BENEFITS

- XT film cut & clamp
- Eliminates wasted operator time getting on and off the forklift
- Improve productivity by keeping the operator on the forklift
- Reduces risk of injuries
- Fully protected mechanical cut & clamp
- 12 month Warranty, on all components with unlimited cycles.

FEATURES

- Remote START lanyard switch
- Automatic film cut & clamp
- Turntable diameter 1650mm
- Turntable Speed 1-12 RPM
- Power-Roller Stretch® System 200%
- Variable wrapping force
- Hand held remote control units (optional extra at additional cost)
- Various & customisable options available

Q-300XT PLUS

SEMI AUTOMATIC STRETCH WRAPPING SYSTEM

THROUGHPUT

- Up to 30 - 35 loads per hour

IDEAL FOR

- Eliminating double handling of loads
- Reducing the forklift and labour usage in the wrapping process
- Automation in a semi-automatic stretch wrap environment

BENEFITS

- Activated from forklift
- Saves valuable floor space
- Requires one less forklift and one less operator to wrap 30-100 loads/day
- Expediates flow to and from
- Reduces product damage
- Reduces risk of injuries
- Always open and ready to wrap the next load
- Clean design
- Safe, convenient film loading

- "Touchless" film cutting system
- Safety shut-down systems
- Easy access
- 12 month Warranty, on all components with unlimited cycles.

FEATURES

- Remote START lanyard switch
- Load accumulation conveyor
- Automatic film cut & clamp
- Turntable diameter 1650mm
- Turntable Speed 1-12 RPM
- Power-Roller Stretch® System 200%
- Variable wrapping force
- Hand held remote control units (optional extra at additional cost)
- Various & customisable options available
