

SilaFARM Product Family

Integrated Packaging is an Australian-owned company specialising in the development, manufacture and supply of world-leading wrapping solutions and associated wrapping equipment, for the national and international industrial and agricultural markets. In fact, the first "stretch-wrapped" silage bales in the world were wrapped in Australia by Integrated Packaging. The same company that also designed, manufactured and patented the world's first bale wrapping machine in 1984.

Today, Integrated Packaging's Agricultural Division is a world leader in the development, manufacture and supply of integrated crop packaging and silage inoculant solutions with an extensive and proven range of products under the SilaFARM Product Family brand name banner.

The SilaFARM Product Family brand name is your guarantee of quality end to end crop packaging solutions designed to maximise returns from your investments.

And, unlike many imported products, they are manufactured to International Quality Standards and cater for the most extreme environmental conditions and applications.

Silage Films

SilaWRAP™

THE ORIGINAL STRETCH WRAP

Arguably, the world's most respected silage baling film, SilaWRAP comes with a 12-month guarantee against UV degradation, features high UV stabilization and provides an airtight and weather-proof shield, when used according to instructions.

Features of SilaWRAP include:

- Extra high tack levels
- Premium quality resins
- Consistent roll performance
- International quality standards

Available in:

Green/Black/White 750mm x 1500m x 25µm & Green/Black 500mm x 1500 m x 25µm
Green 750mm x 1250m x 30µm

SilaWRAP PLUS™ EnduroWRAP™

EXTRA LENGTH MORE BALES LONGER. STRONGER. LESS WASTE

Premium quality silage wrapping film, SilaWRAP PLUS and EnduroWRAP use the latest advances in our patented pre-stretch technology to help you achieve greater wrapping efficiencies.

SilaWRAP Plus offers an added benefit as it requires no gear change from conventional film.

Available in:

SilaWRAP PLUS Green 730mm x 2300m x 16µm @ 55% stretch ratio
EnduroWRAP Green 730mm x 3100m x 12µm @ 35% stretch ratio
EnduroWRAP Green/Black 730mm or 480mm x 2600m x 14µm @ 35% stretch ratio

FARM-WRAP™

STRETCH SILAGE WRAP

Farmwrap is manufactured in Australia and offers consistent quality and gauge with extra tackifier. Farmwrap provides even stretch and reduced windowing and features high puncture and tear resistance to thoroughly protect your bales with outstanding cling.

Available in:

Green/Black 750mm or 500mm x 1500m x 25µm

Bale Net

SilaNET™

ROUND BALE NETTING

Secure your crop and achieve perfect round bales with SilaNET. Whether you want full width or over the side wrapping in hay or silage, SilaNET has you completely covered.

Features of SilaNET include:

- Full bale coverage
- High strength
- Guaranteed length
- Suited to most baler models

Available in:

White & Green Striped 1230mm x 2100m or 3100m
Green 1300mm x 2100m or 3100m
Red, White & Blue 1650mm x 2100m
White 690mm x 1400m

FORTE™

EXTRA STRONG... EXTRA TOUGH

Australia's toughest netwrap, FORTE is 15% stronger than other netwraps, features a 300kg breakforce, stronger and wider chains and is suitable for all crop types.

Features of FORTE include:

- Full bale coverage
- 25 chains across
- Guaranteed length
- Greater time and cost efficiencies

Available in:

Red, White & Blue 1230mm x 2100m or 3100m
Green & White 1300mm x 3100m

MAXICOVER™

Manufactured by Cotesi, one of Europe's leading bale net manufacturer with a long history of supplying the quality Baler products, MaxiCOVER guarantees high performance.

Features of Maxicover include:

- Full coverage protection
- Consistent winding
- Strength guaranteed
- End warning indicators

Available in:

White & Blue Stripe 1230mm x 2000m or 3300m

Bale Twine

SilaTWINE™ DONAGHYS™

EXTRA LONG. EXTRA STRONG PERFORMANCE FIRST

Our super-strength quality twine products are available in a variety of cost-effective baling options, suitable for round, small square and big square bales. Designed for superior high knot strength to maximise bale weight and compression, SilaTWINE is perfect as a standalone application product, or can be used to secure bales/silage before wrapping with SilaWRAP stretch film.

Round Bale Twine & Sisal Twines

Available in:

Donaghy's Big Blue 2 x 6000m Spools / Pack
Sisal Silage Natural 2 x 3000m Spools / Pack
Sisal Binder Natural 8 x 812m Spools / Pack

Small Square Bale Twine

Available in:

Donaghy's Ezy See Blue 2 x 2000m Spools / Pack
Freerun Sisal 2 x 1200m Spools / Pack

Big Square Twine

Available in:

Donaghy's Don 440 (Terracotta) 2 x 1300m Spools / Pack
Donaghy's Top Knot (Blue) 2 x 1100 Spools / Packm
Donaghy's Don480 (Orange) & Donaghy's Ezy Run 460 2 x 1220m Spools / Pack
SilaTWINE BT EXTRA (Yellow or Blue) 2 x 1275m Spools / Pack

Pit Storage

PitCOVER™

SUPERIOR PIT PROTECTION

Made with the latest technology resins, PitCOVER is sourced from a quality international supplier. Providing extra strength and UV protection, it's manufactured with two layers to reflect heat and maintain ideal storage conditions for your silage.

Features of PitCOVER include:

- Full UV stabilisers
- High UV, puncture & tear resistance
- 12 month guarantee
- Choice of rolls widths to suit pit sizes

Available in:

Black/White 12m or 15m x 50m x 180µm
Black/White 18m x 50m x 150µm
Black/White 12m, 15m or 18m x 300m x 180µm
Black/White 12m or 15m x 50m x 127µm

Grain Storage

GrainBAG™

THE HIGH PERFORMANCE BAG

Our GrainBAG is the authentic grain storage solution. Thick and strong with up to a 220 T capacity, GrainBAG has been purposely designed to hold any grain (and fodder) type for extended periods. It also significantly reduces storage and transport costs and eases congestion during harvest.

Features of GrainBAG include:

- High puncture resistance
- Reduced need for chemical treatment
- Up to 220 tonne capacity
- UV protection for local conditions

Available in:

White 2.75m x 60m or 75m x 250µm
White 3.05m x 75m x 250µm

Mulch Films

X-Pect

Our mulch films are produced in both a conventional and a pre-stretched premium range to serve many purposes. Black mulch films assist in the control of weed growth, white mulch films reflect sunlight and clear mulch films encourage early plant development.

Features of X-PECT Conventional Mulch Film include:

- High quality resins
- Superior opacity/block out properties
- Even colour distribution
- High puncture resistance
- Resists exposure to UV

Available in:

Black, Black/White or Clear in all industry standard sizes.

X-Pect PLUS

Utilising our patented pre-stretching technology we produce a mulch film with unique benefits. X-Pect PLUS films are more heavy duty, thinner gauge and apply tighter to the bed.

Features of X-PECT PLUS Mulch Film include:

- Maximum meterage per roll
- High performance UV inhibitor
- Bed hugging technology
- Excellent puncture resistance
- Superior film longevity and chemical resistance
- Lowers application downtime and costs

Available in:

Black, Black/White or Clear in all industry standard sizes.

Accessories

Silage Tubes

Fast and efficient, our tubes are manufactured from specially formulated polyethylene film that creates an ideal environment for fermentation and to maintain feed quality.

Available in:

White 2.1m x 45.7m or 67m x 100µm

Silage End Tube/Cap

Used to cap off square or round bale wrapped silage, providing maximum coverage and protection from unravelling.

Available in:

Green 1.83m x 2.8m

Silage Tape

SilaTAPE silage repair tape can be used for repairing accidental tears and punctures caused during application. Can be applied directly on to silage wraps, silage tubes, grain bags, pit covers and mulch films.

Available in:

Green 96mm x 25m or 30m

Inoculant

Sil-All4x4 is a premium silage inoculant, manufactured and researched by Alltech, a global leader in animal nutrition.

Features of Sil-All4x4 include:

- Granular or Flexible volume application
- Incorporates True Protein Technology®
- One million bacteria (CFU) per gram of silage
- Four strains of bacteria for rapid pH drop
- Four Enzymes to support fermentation
- Proven protein enhancement benefits

Available in:

Sil-All4x4 Granular 20kg bag- Treats 80T

Sil-All4x4 FVA Water Soluble 200g sachet- Treats 100T

Gandy Granular Applicator

Recycled Plastic Products

We go to greater lengths to create new uses for waste plastic

Integrated Recycling is the latest member of the Integrated Packaging Group and is the link that enables waste plastic to be recreated as engineered endurance products.

As market leader in the manufacture of industrial stretch film and agricultural wrap film, Integrated Packaging is committed to dealing with waste plastic in environmentally appropriate ways.

Integrated Recycling's technology enables the group to recycle agricultural and other polyethylene based plastics into a range of timber, concrete and steel substitute products for a variety of industries such as farming and agriculture, parks and recreation, marine and aqua culture and gardens and landscaping.
